

Get Started with Minecraft: Education Edition

To get started with Minecraft: Education Edition follow these steps

- You will need a computer running Windows 10 or Mac OS

Go to <http://education.minecraft.net> and click on the purple 'Get Started' in the top left hand corner.

Next, click on the 'I'm a Student' box and type in your school **Office 365** email address to verify eligibility (username@coderojobelfast.com).

Once your email address has been verified, click on the option to download for either Windows 10 or Mac OS.

On the PC, once downloaded, open your download folder in Windows Explorer, then chose 'Extract All' from the View menu. This will extract the downloaded ZIP file.

Chose the location to extract the files today.

When extracted, right click on Open the folder Minecraft Education Edition and find the 'InstallMinecraftEducationEdition.bat' file. Right click with the mouse and chose **Run As Administrator** from the context menu.

Once Minecraft has installed, your Minecraft:Education Edition will be found in the Start Menu. Click on to it launch and then sign in with your Office 365 account (username@**coderdojobelfast.com**) and password.

Installing CodeBuilder

To code in Minecraft you need to install the CodeBuilder tool. To download and install this follow these steps:

	<p>Two options:</p> <ol style="list-style-type: none">1. Chose CodeBuilder from the Getting Started menu at http://education.minecraft.net.2. Hover over 'Support' and select 'Download'. Then click on either Windows 10 or macOS next to 'Code Connection'.
	<p>When the Code Connection has downloaded, right click and chose Install from the Context Menu. Code Builder will then start installing.</p>
	<p>Launch the Code Connection and it will ask you to copy a command into Minecraft: Education Edition. Copy this command and launch Minecraft: Education Edition.</p>
	<p>Open a game in Minecraft and then press the '/' button on your keyboard to launch the commands. You will have the option at the bottom of the page to enter a command; you can paste the Code Connection command here. Then click on the forward pointing arrow on the right hand side.</p>
